- Creativity
- Flexibility
- Reliability
- Problem-Solving
- Teamwork
- Communication

### — ABOUT ME

I've been making and selling designs on many online platforms. One day, it occurred to me I could make my own website. That's when I started learning how to code. My first love was CSS and its frameworks, but when I met JavaScript and React a new love was born because it is so easy to learn and understand. Because I am a good problem solver, I love coding and it always feels so magical to me.

### — IT COURSES
